

and after much begging and pleading, I decided to run for the \$1,000 cash and assorted other merchandise awards. That is right, \$1,000 in cold cash, not money tucked away in some shamateur trust fund. Oh, the shame of running for greenbacks.

Details of the race itself are hard to remember due to the intense noise on race day, generated by the 10 fans and the "loaded" field of 25. The race went according to plan - the first 3 places received moolah and exactly 3 top flight runners broke away in the first 400 yards. Naturally, I was not in that hotshot lead group. The course was what you would describe as mountainous!!! After climbing the first mile long 'grade' I settled into my final finish position of 5th. First place went to a young stud who placed in the top 3 at the Great Race (I refuse to divulge his name). He had the audacity to refuse the 1,000 one dollar bills and accept free gas from the local gas station. Me, I finished 2 places out of the big bucks but I placed 3rd in my age group. I won a \$30 gift certificate, but I have never returned to the beautiful hamlet of Marion Center to cash in my professional earnings.

I realize that I have tainted all of you amateur runners by competing in our club and other local runs. You may decide to tar and feather me for this but at least now I have a clean conscience. Jim Enright
